Our Firm

[more](#)

The Law Firm of Andrey Gorodissky and Partners was founded in 1992 by lawyers who by that time had already gained extensive experience by working for various government agencies and central regulatory and administrative authorities, both in and outside Russia.

Over 25 years of being on the scene we have earned an impeccable reputation. To date we boast more than 500 clients - major companies in Russia, the USA, Western Europe and South-East Asia.

We take special pride in our team, which saw the establishment of the firm and is still in place. This is because we are all on the same page. Our esprit de corps is key to forging and nurturing long-term relationships with our clients.

At the same time, AGP's staff is getting younger all the time through infusions of new blood. On the legal scene we are considered a unique school for strong lawyers, where they gain valuable experience.

“ONE OF THE MOST EXPERIENCED LAW OFFICES IN RUSSIA, Andrey Gorodissky & Partners has a broad business law practice handling, amongst other things, corporate, competition and banking regulations related matters. The IP group is an important element of the firm and often supports clients in trade mark registration, as well as strategic advice. Having gained in-depth knowledge of various industries, including pharmaceuticals, IT, manufacturing and media, the team is well placed to advise on a range of practical issues connected with clients’ operations.”

“Chambers & Partners, 2013”
